REBEL POWER USER GUIDE

Thank you for purchasing the Rebel Power Case. Your Rebel Power will supply you with hours of extra power whenever you need it, while providing the protection of a rugged full-body case. With its full access open-port design, you can actually charge your phone and Rebel Power at the same time, each using their own charging cable. When you've got little time but need lots of power, Rebel Power is here for you!

## Quick Start

---

**Single press:** Checks the battery level

**Double press:** Power the case on and off

## Power Up

---

For optimal battery health, fully charge your Rebel Power before first use. A full charge may take up to three hours depending on power source.

Charge your Rebel Power by connecting it to a power source using the included charging cable. The power indicator on your Rebel Power will illuminate in succession indicating that the Rebel Power has begun charging.

When the Rebel Power is fully charged, all of the power indicator lights will illuminate.

## Checking Battery Status

---

Press and release the power button on your Rebel Power, the power indicator will illuminate indicating the charge level.

### Power Status Indicator

○ ○ ○ ○ 0-25%  
● ○ ○ ○ 25-50%  
● ● ○ ○ 50-75%  
● ● ● ○ 75-100%  
● ● ● ● 100%

○ Flashing   ○ Off   ● On

## Setup your Rebel Power

---

Place your phone over the opening of the Rebel Power, insert the bottom end of your phone (side with power port) into the Rebel Power and firmly press the top of your phone until properly seated into the Rebel Power Case.

## Charging your Phone

---

**Auto Charge:** Your Rebel Power is designed to automatically charge both your phone and Rebel Power when connected to a power source. The phone will take priority charge – then the case.

**Auto Off:** Phone charging will stop when your Rebel Power is disconnected from its power source.

**Start Phone Charging:** To begin charging your phone, “Double Press” the power button on the Rebel Power. The power indicator will illuminate indicating that your phone is charging.

**Stop Phone Charging:** While charging is active, double press the power button on the Rebel Power, the power indicator will turn off indicating that your phone is not charging.

## Caring for your Rebel Power

---

Keep your Rebel Power Case dry and away from moisture and corrosive materials.

When cleaning, use a soft cloth and (if necessary) dampen with a minimal amount of water or diluted mild soap.

Make sure the charging port does not become contaminated with lint or other debris. Use a canned-air type of product

periodically to ensure that the port opening is clear.

Recharge your Rebel Power Case once every three months when not in use.

## Specification

---

Battery Type: Li-polymer Battery

Capacity: 3.8V-20Wh

Input: 5V-2A(Max)

Output: 5V-1A(Max)

Battery life may vary depending on climate.

## Warranty

---

Your new Rebel Power is covered by a Limited Manufacturer’s Warranty. Details of the warranty are as follows: for a period of one (1) year from the date of retail purchase, Encased Products warrants that this product is free of any defects in manufacturing, materials and workmanship. During the warranty period, we shall, at our sole discretion, repair or replace any defective parts within a reasonable period of time and free of charge. Return shipping charges are excluded from warranty coverage.

## Support

---

As with all Encased products, the Rebel Power is backed by our quality assurance and satisfaction guarantee. If you should experience any technical or performance issues with your device, or if you simply have a question or inquiry, we invite you to contact our customer service department at [hello@Encased.com](mailto:hello@Encased.com), and we will do everything we can to help resolve the issue.
